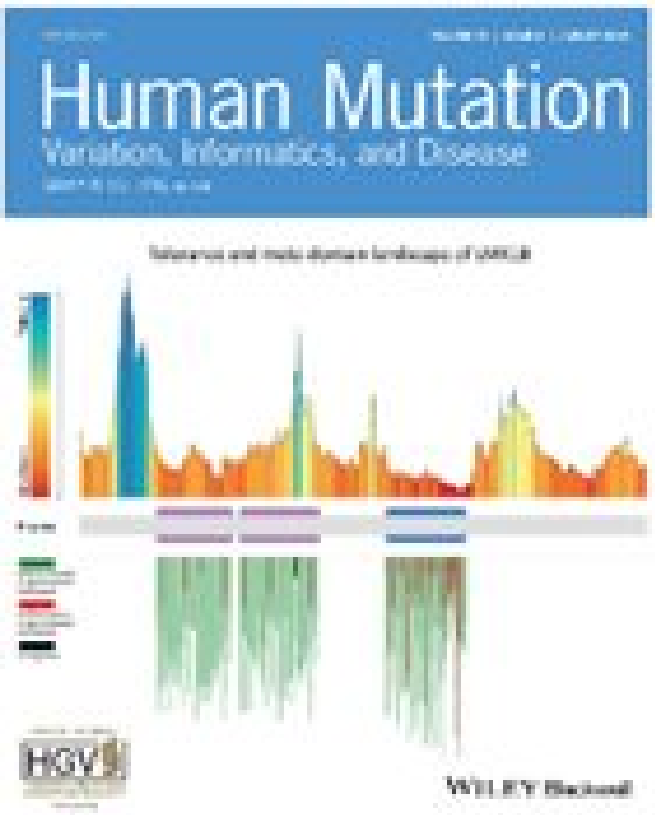
## Human Mutation

21 August 2019



The MetaDome web server build to interpret genetic variants based on genetic tolerance and homologous protein domains is featured on the Cover of Human Mutation's August edition. Additionally it is selected as an Editor's choice article.

MetaDome was developed by Laurens van de Wiel, Coos Baakman, Daan Gilissen, Joris Veltman, Gert Vriend and Christian Gilissen (Departments: CMBI & Human Genetics).

ISSN 1059-7794 VOLUME 40 | ISSUE 8 | AUGUST 2019
